# MEDICAL TRANSPORTATION SERVICES

## Company Overview

Founded in 1997, Gamma Air Medical is the commercial appearance of a long time hard work at the air medical transportation field.

Gamma Air Medical is the pioneer in private air ambulance services in Greece.

Main object, ever since our foundation, has been the air medical transportation and medical escort of patients via means of air transport, air ambulance fixed and rotary wing or commercial scheduled flights.

The aim of the company is always the safe transportation of people suffering (bedside to bedside service), ensuring the best possible medical evacuations – specialist doctors and nursing staff, properly equipped means of transportation (ground, air or water) and adequate medical supplies.

# Team

Dedicated members of Gamma Air Medical for years, sharing the key goals and principals of our company

# SERVICES

Our experience in the medical evacuation field for over 25 years enables us to exceed our activities to a wide range, from transportation to medical advisory services

## AIR AMBULANCE

Gamma Air Medical is specialized in patient's medical transfer from the hospitalization or residence place to the desired destination anywhere in the world. Bedside to Bedside transfer is our standard procedure service, including ground transport as needed.

## MEDICAL ESCORT

Gamma Air Medical provides superior Medical Escort services for patients travelling on commercial flights on both domestic Greece and international flights. Highly trained and experienced MD or registered nurses specialized in Aviation Medicine and Travel Medicine and equipped with state of the art medical equipment are available to accompany the patient anywhere in the world.

## GROUND AMBULANCE

Gamma Air Medical provides ground transfer services with fully medical equipped ambulance vehicles in BLS (Basic Life Support) or ALS (Advanced Life Support) and ICU (Intensive Care Unit) configuration. We arrange and coordinate the ambulance transfer of patients anywhere requested (inter-facility transports; hospital discharges; long distance transports; neonates in incubator) escorted by MD or Registered Nurse Gamma Air Medical staff. We take up all cases of "secondary" transportation within the greater area of Athens, but also any where in Greece.

## MEDICAL CLEARANCE

Highly trained medical personnel, available 24/7, provide medical advice to airline companies whether a passenger, who suffers from a medical condition, is "Fit to Fly" on commercial scheduled flight. When fitness to travel is in doubt or when special services are required e.g. oxygen, stretcher or carry-on medical equipment, our company is informed on the case in all detail, evaluates and decides on the fit-to fly state.

---

# MEDICAL ASSISTANCE

Unique services focusing on pro-acting in maintaining medical care control and lower costs for the health services provided

## HOSPITAL ADMISSION

With established collaborations with major hospitals we can make sure the patients get the best possible care and treatment. Either a medical examination is needed or hospitalization, we provide the most adequate solution.

## MEDICAL REPORTS

We provide our business partners with accurate medical reports for their patients health condition. Thorough medical information is updated by our physicians who keep monitoring the patients through out their hospitalization, from admission to discharge.

## COST CONTAINMENT

Our main goal is to lower the cost by checking and controlling the hospital's and clinics' prices. That practically means the best possible quality of health services in reasonable costs. We perform thorough cost investigation in order to determine whether the invoices coincide with the treatment given and cross-check every file to get the best possible cost break down.
